

9HYVB12

Hydraulic transmission jack with telescopic cylinder (1200 kg)

CE

- Especially designed for lifting heavy truck transmissions
- Ideal for workshop pits due to low minimum height and long stroke
- Pedal operated pump with built-in quick lift leaving both hands free for working
- Precise adjustment for positioning of transmission
- Hand operated dead man's release for optimum safety whilst lowering
- Galvanised support saddle and base frame
- Built-in safety overload valve
- Sturdy swivel castors (2 lockable) for optimum stability and manoeuvrability
