

9HYCMA1

Crane arm for disc brakes, brake calipers...

- Compatible with the reference: 9HYCM5
- 360° swivelling hook
- The crane arm can be turned 180° so not to hinder wheel replacement.
- The crane arm is effective and ergonomic when lifting disc brakes, brake drums, callipers, etc.
- The telescopic crane arm transforms the wheel dolly into a lifting tool
- load weight 100-250 kg
