

9TYC11

Single scissor hydraulic lifting table (150, 500, 1000 kg)

Note : Under no circumstances should you work below a lifted load without having secured it using mechanical supports.

- Allows lifting, lowering and possibly moving heavy loads over short distances.
- Hydraulic lifting by pedal and progressive lowering by joystick allowing the platform to stop at the desired height.
- Easy to move thanks to its chrome hoop.
- 2 swivel and 2 fixed castors, equipped with protection and brakes to stop the rotation of the wheels in case of emergency.
- Made of high strength steel.
- Safety valve built into the hydraulic cylinder to prevent overloading.
- The spacing between the moving parts ensures safety by preventing the user from pinching their fingers.
- Manual dead man's release for optimum safety when lowering.

	Capacity (kg)	Lift plate dimensions (mm)	Minimum Height H1 (mm)	Maximum height H2 (mm)	H (mm)	Lifting height (mm)	Max height (mm)	Height (mm)	Overall height (mm)	Number of pedal strokes for maximum height	Ø wheels (mm)	Wheels dimensions (mm)	Weight (kg)
