

11015SQ

Screw extractor set - 15 pcs

Weight (kg) : 0,51

- For removing damaged, broken, or jammed screws.
- For removing rounded, damaged, broken, or jammed bolts.
- SNCM + V steel
- Hardness : HRC 49-52
- Do not ever use these hand extractors with a powertool, to avoid risks of damage or injury.
- Operation :
 - 1. Drill a hole, 0.5 mm bigger than the extractor, on the bolt.
 - 2. Insert the extractor inside the bolt.
 - 3. Turn counter-clockwise to remove the bolt.
